

DISTRICT OPERATIONS – ADMINISTRATIVE SERVICES
Reporting to Public Session, Tuesday, September 28, 2021

1. The Enhancing Student Learning Report 2021-2022

School districts across the province are required to develop multi-year plans for improving student outcomes and life choices in the form of an annual report, the Enhancing Student Learning Report.

The draft report for 2021-2022 was presented to the Committee of the Whole meeting on September 13, 2021. The final report is attached.

Recommendation:

THAT the Board of Education approve the attached Enhancing Student Learning Report 2021/2022.

2. Field Experiences – September 2021

The following routine report, based upon administration of the Board's policies, is presented for the period up to September 28, 2021.

- Field Experiences

Recommendation:

THAT the Board of Education receive and approve the report presented in the Superintendent's District Operations – Administrative Services Report dated September 28, 2021.

Board Report

Date: September 28, 2021
To: Board of Education – Regular Meeting
From: Wanda Mitchell, Assistant Superintendent
Subject: Enhancing Student Learning Report 2021/2022

Background:

School districts across the province are required to develop multi-year plans for enhancing student learning and update these plans annually by September 30th. The Enhancing Student Learning Report supports a system-wide focus on improving student outcomes and life choices for every student.

Considerations:

The Enhancing Student Learning Report 2021/2022 was presented in draft during the Committee of the Whole meeting on Monday, September 13, 2021. After receiving feedback from committee members and making suggested adjustments in accordance with the provincial reporting order, the final report is attached for Board approval.

Recommendation:

THAT the Board of Education approve the attached Enhancing Student Learning Report 2021/2022.

Enhancing Student Learning Report 2021-2022

Burnaby School District

Enhancing Student Learning Report 2021-2022

INTRODUCTION

The Burnaby School District is on Coast Salish territory in the traditional and ancestral lands of the hñq̓əmiñəm and skwxwú7 mesh speaking people. According to the last census in 2016, it had a population of 230,080. Of note, with 50% of Burnaby's population born outside of Canada and more than 100 languages spoken by its students, it is a very culturally diverse school district.

The Burnaby School District operates 41 elementary and 8 secondary schools, including a range of district programs and Provincial Resource Programs. The District enrolls approximately 24,000 students (K-12) and employs 4,000 dedicated employees who are committed to providing all students with a wide variety of innovative, high-quality programs to ensure student achievement in areas that include academics, athletics, trades training, visual and performing arts, social responsibility and leadership. The District also provides lifelong learning opportunities to more than 6,000 adult learners through the established Burnaby Community & Continuing Education program.

CONTINUOUS IMPROVEMENT REVIEW CYCLE

[The Burnaby Board of Education's 2019-2024 Strategic Plan](#) represents the cumulative input, experience and vision of the Board, the Senior Management and its 130+ member Burnaby Leadership Team. To build this plan, the Board brought the voice and vision of its constituents and community to bear. This is a dynamic living document that relies on consultation and a commitment to continuously improve.

Burnaby Schools also participates in the Equity Scan Project with the Ministry of Education and annually tracks and reviews Indigenous student achievement in relation to the objective of the Equity Scan, which is to create more equitable experiences and outcomes for Indigenous students. Further, the District is working from the previous [Enhancement Agreement](#), as consultation for the next Agreement was delayed due to COVID-19. The goals of the Enhancement Agreement focus on Indigenous student academic achievement, connectedness and belonging and sense of self.

All schools develop a School Plan annually in collaboration with staff and community. School Plans are also discussed and reviewed annually with district staff. School goals are evidence-based, and strategies are to be meaningful, culturally responsive and sustainable. Through the School Plan process, staff identify individual students or groups of students who require additional supports and determine goals and strategies to support these students. As the School Plan is a living document, schools monitor progress and adjust goals and strategies as required.

Schools go through a school plan visit process from February to April on a rotating three-year schedule with a focus on improving student achievement. This process is meant to be ongoing, collaborative and relevant to the local school context and student needs. The purpose of the school plan visit is to help schools examine their goals and action plans as they determine if processes are going well or if adjustments are required. It also provides an opportunity for staff to participate in collaborative conversations, share promising practices, and learn from one another.

As part of the ongoing review cycle, The Burnaby School District will continue to:

- Align the Board's Strategic Plan, the District's Enhancing Student Learning Report, and School Plans based on common values and a shared commitment to improve success, equity and inclusivity of outcomes for all students.

Enhancing Student Learning Report 2021-2022

- Consult with Indigenous partners regarding the continuous improvement cycle through meetings with the Indigenous Education Working Group.
- Follow updated implementation framework processes and guidelines as outlined by the Ministry of Education, including the publishing and communicating of this document to the public annually.
- Use the achievement cycle in Figure 1.1 as a framework in improving achievement for each learner.

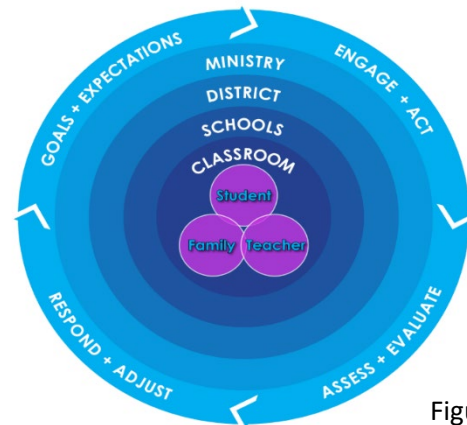

Figure 1.1

STUDENT PERFORMANCE RESULTS

The following section includes the requirements as set out in the Enhancing Student Learning Reporting Order using measures as outlined by the Province and local data.

Provincial and local data as well as the Indigenous Enhancement Agreement, and the Burnaby Board of Education Strategic Plan are appendices to this report. Provincial and local data have been interpreted and trends have been identified to determine areas of focus, as outlined in this section. Strategies to identify emerging areas of need are also included.

It should be noted that provincial and some of the district data for Children and Youth in Care in this report is masked due to the low number of students in care enrolled in the district. Each school has active protocols to support students and to engage with families and agencies, as well as a district-based youth worker who supports case management for Children and Youth in Care.

Additionally, as Burnaby is an urban district with the vast majority of Indigenous students living off reserve, much of the provincial data contained in this report for on reserve students is masked. Due to the low student population, certain sections of the How We Are Doing Report is also masked. Although the information is not released to the public, district staff receive an unmasked report which is reviewed and analyzed yearly.

INTELLECTUAL DEVELOPMENT

EDUCATIONAL OUTCOME 1 - Students will meet or exceed literacy expectations for each grade level.

Educational outcome 1 connects to the following Board of Education's Strategic Plan priority and goals:

Strategic Priority	Goals
Thriving Students	<ol style="list-style-type: none"> 1. Engage students in individualized, relevant and innovative learning opportunities 2. Embed Indigenous perspectives and knowledge across the District 3. Implement a strength-based approach to inclusion that meets the diverse needs of all students

Enhancing Student Learning Report 2021-2022

Measure 1.1
Current year and 3-year trend for the number and percentage of students in grades 4 and 7 on-track or extending literacy expectations as specified in provincial assessments.
All Students
<ul style="list-style-type: none"> ▪ The district is seeing consistent results in the 3-year trend for students in grades 4 and 7 on-track or extending literacy expectations in the FSA data. The FSA data also shows that Burnaby students are performing consistently above the provincial average. ▪ District year end summative K-7 report card data also shows consistent results over time and shows a high percentage of students who are on track or extending literacy expectations.
Indigenous Students
<ul style="list-style-type: none"> ▪ The provincial data for Gr.4 and 7 is masked, with the exception of Grade 7 in the <i>How We Are Doing Report</i>, which shows that there is a gap in achievement between Indigenous and non-Indigenous students. District staff reviews and analyzes the <i>How We Are Doing Report</i> annually in the area of literacy for students in all grades. This will continue to be an area of focus moving forward.
Children and Youth in Care
<ul style="list-style-type: none"> ▪ The Provincial and District data is masked. Please see statement on page 2.
Students with Disabilities or Diverse Abilities
<ul style="list-style-type: none"> ▪ The district is seeing consistent results that exceed the provincial average in the 3-year trend with students in grades 4 and 7. However, there is a notable decrease below the provincial average in the 2019-2020 school year for grade 4 reading. ▪ District year end K-7 summative report card data shows students' literacy results are consistent over time. They are below literacy results for all students. ▪ Staff have taken note of the data and will continue to monitor progress and make adjustments as required.

Measure 1.2
Current year and 3-year trend for the number and percentage of students proficient or extending literacy expectations as specified in Grade 10 literacy assessments.
All Students
<ul style="list-style-type: none"> ▪ This data shows that Burnaby is above the provincial average in literacy for all resident students. ▪ District year end summative report card data also shows consistent results for Gr. 8-12 over time and shows a high percentage of students whose grade is C or above.
Indigenous Students
<ul style="list-style-type: none"> ▪ The provincial data is masked, however, district staff review and analyze the <i>How We Are Doing Report</i> annually, in the area of literacy at Gr.10. ▪ District year end summative Gr.8-12 report card data continues to show that all students are outperforming Indigenous students. Closing the gap in literacy K-12 will continue to be an area of focus.
Children and Youth in Care
<ul style="list-style-type: none"> ▪ The provincial data is masked. Please see statement on page 2. ▪ District year end summative report card data Gr.8-12 shows results for Children and Youth in Care are consistent and are on par with all students.
Students with Disabilities or Diverse Abilities
<ul style="list-style-type: none"> ▪ While students with disabilities or diverse abilities have performed below the average of all resident students, the data is above the provincial average. Future trends will continue to be monitored. ▪ District year end summative report card data shows students' literacy results are consistent over time but are below literacy results for all students. Staff will continue to monitor student progress and make adjustments as required.

Enhancing Student Learning Report 2021-2022

Strategies:

- Encourage elementary schools to identify a school-based literacy lead who could support professional learning on evidence-based universal literacy strategies
- Build teachers' understanding of the updated District Literacy Framework to ensure it is used in implementing the Curricular Competencies within the curriculum*
- Continue to implement the District Early Years Plan with a focus on early literacy*
- Indigenous student data K-12 is monitored at school and district levels. Targeted district and school-based staff are allocated to provide academic support for Indigenous students.
- Continue to use interventions such as *Fast ForWord*, *Reading Recovery*, *Levelled Literacy Interventions*, and *Sheltered Instruction Observation Protocol (SIOP)* Programs in elementary and secondary schools. Explore evidence-based literacy intervention programs to support student achievement.
- Increase professional learning opportunities, including Universal Design for Learning, to develop the capacity of classroom teachers, learning support teachers and Educational Assistants to teach and support all learners
- Continue to review, identify and implement adjustments within learning support program and service options to meet the needs and interests of the diverse student population *
- Develop summer learning courses and program offerings to support students with their literacy skills *
- Continue to engage students and support learning through the innovative use of technology*
- Implement flexible scheduling models in secondary schools to provide academic support including literacy*
- Continue to implement the updated English Language Learning Standards for English language learners*
- Continue to facilitate discussions with school leaders regarding student literacy achievement including school and district level data, to support strategies implemented at a school level to continually improve in this area
- Implementation of strength-based, competency-based IEP for students with diverse abilities
- Continue to monitor individual student progress for students with diverse abilities and develop/adjust competency based IEP goals as necessary

EDUCATIONAL OUTCOME 2 – Students will meet or exceed numeracy expectations for each grade level

Educational outcome 2 connects to the following Board of Education's Strategic Plan priority and goal:

Strategic Priority	Goals
Thriving Students	1. Engage students in individualized, relevant and innovative learning opportunities

Measure 2.1

Current year and 3-year trend for the number and percentage of students in grades 4 and 7 on-track or extending numeracy expectations as specified in provincial assessments.

All Students

- FSA data shows that students are consistently performing above the provincial average in the 3-year trend of Gr. 4-7 students who are on-track or extending numeracy expectations.
- District year end summative K-7 report card data also shows consistent results over time and shows a high percentage of students who are on track or extending numeracy expectations.

Enhancing Student Learning Report 2021-2022

Indigenous Students
<ul style="list-style-type: none"> ▪ The provincial data is masked, however, district staff review and analyze the <i>How We Are Doing Report</i> annually, in the area of numeracy at Gr. 4 and Gr.7. ▪ District year end summative K-7 report card data continues to show that all students are outperforming Indigenous students. Indigenous student achievement will continue to be an area of focus and staff will continue to monitor and make adjustments as required.
Children and Youth in Care
<ul style="list-style-type: none"> ▪ The Provincial and District data is masked. Please see statement on page 2.
Students with Disabilities or Diverse Abilities
<ul style="list-style-type: none"> ▪ There has been a slight upward trend in the last 3 years in numeracy results of grade 4 students with disabilities or diverse abilities. There has been a slight downward trend in the last 3 years with grade 7 students. However, in both grades 4 and 7 the results are consistently above provincial average. ▪ District year end summative report card data shows a slight increase for Gr.1-3 and are consistent for Gr. 4-7 students over time in numeracy results. They are below numeracy results for all students. Staff will continue to monitor student progress in this area and make adjustments as required.

Measure 2.2
Current year and 3-year trend for the number and percentage of students proficient or extending numeracy expectations as specified in the Grade 10 numeracy assessments.
All Students
<ul style="list-style-type: none"> ▪ This data shows that Burnaby consistently performs above the provincial average in numeracy. ▪ District year end summative Gr. 8-12 report card data also shows consistent results over time and shows a high percentage of students whose grade is C or above.
Indigenous Students
<ul style="list-style-type: none"> ▪ The provincial data is masked. Data in the <i>How We Are Doing Report</i> and district year end summative Gr. 8-12 report card data shows that there is a gap between Indigenous and non-Indigenous students in Burnaby. However, Indigenous students in Burnaby are performing above the provincial average of their peer group. Individual student achievement will continue to be monitored and adjustments made as required.
Children and Youth in Care
<ul style="list-style-type: none"> ▪ The provincial data is masked. Please see statement on page 2. ▪ District year end summative Gr. 8-12 report card data shows an upward trend and that Children and Youth in Care performed on par with all students in June 2021.
Students with Disabilities or Diverse Abilities
<ul style="list-style-type: none"> ▪ There was a significant decrease in Numeracy 10 results in 2018/19 compared to the provincial average with the results stabilizing the following year. ▪ District year end summative report card data shows an increase over time in numeracy results. As the results are below numeracy results for all students, staff will continue to monitor trends and adjust as required.

Strategies:

- Develop the capacity of elementary classroom teachers by identifying math mentor teachers in pilot schools
- Indigenous student data K-12 is monitored at school and district levels. Targeted district and school-based staff are allocated to provide academic support for Indigenous students.
- Increase professional learning opportunities, including Universal Design for Learning, to develop the capacity of classroom teachers, learning support teachers and Educational Assistants to teach and support all learners*
- Continue to review, identify and implement adjustments within learning support program and service options to meet the needs and interests of the diverse student population*

Enhancing Student Learning Report 2021-2022

- Develop summer learning courses and program offerings to support students with numeracy skills*
- Continue to engage students and support learning through the innovative use of technology*
- Implement flexible scheduling models in secondary schools to provide academic support including numeracy*
- Continue to facilitate discussions with school leaders regarding student numeracy achievement including school and district level data, to support strategies implemented at a school level
- Implementation of strength-based, competency-based IEP for students with diverse abilities
- Continue to monitor individual student progress for students with diverse abilities and develop/adjust competency-based IEP goals as necessary

HUMAN AND SOCIAL DEVELOPMENT

EDUCATIONAL OUTCOME 3 – Students will feel welcome, safe and connected to their school

Educational outcome 3 connects to the following Board of Education’s Strategic Plan priorities and goals:

Strategic Priority	Goals
Thriving Students	1. Embed Indigenous perspectives and knowledge across the District
Strategic Priority	Goals
An Inclusive and Caring Community	1. Create supportive, inclusive and caring learning communities 2. Increase understanding and support of mental health and well-being

Measure 3.1
Number and percentage of students in grades 4, 7 and 10 who feel welcome, safe, and have a sense of belonging in their school.
All Students
<ul style="list-style-type: none"> ▪ While the 3-year trend remains slightly above the provincial average, increasing the percentage of students who feel welcome, safe, and have a sense of belonging in their school has been identified as an emerging area of focus.
Indigenous Students
<ul style="list-style-type: none"> ▪ The provincial data is masked. We know in speaking with Indigenous students through the Equity Scan Project that a sense of belonging is imperative to their success.
Children and Youth in Care
<ul style="list-style-type: none"> ▪ The provincial data is masked. Please see statement on page 2. As this has been identified as an emerging area of need for all students, Children and Youth in Care will also be supported.
Students with Disabilities or Diverse Abilities
<ul style="list-style-type: none"> ▪ While the 3-year trend remains slightly above the provincial average, increasing the percentage of students with diverse abilities who feel welcome, safe, and have a sense of belonging in their school has been identified as an emerging area of focus.

Enhancing Student Learning Report 2021-2022

Measure 3.2
Number and percentage of students in grades 4, 7, and 10 who feel there are two or more adults at their school who care about them.
All Students
<ul style="list-style-type: none"> While the 3-year trend remains consistent with the provincial average, increasing the percentage of students who feel there are two or more adults in their school who care about them has been identified as an emerging area of focus.
Indigenous Students
<ul style="list-style-type: none"> Most provincial data is masked, however in the <i>How We Are Doing Report</i>, the data shows that the vast majority of secondary Indigenous students report 2 or more adults care for them, while a lower percentage of elementary Indigenous students report 2 or more adults care for them. This will continue to be an area of focus for Indigenous students.
Children and Youth in Care
<ul style="list-style-type: none"> The provincial data is masked. Please see statement on page 2. As this has been identified as an emerging area of need for all students, Children and Youth in Care will also be supported.
Students with Disabilities or Diverse Abilities
<ul style="list-style-type: none"> While the 3-year trend remains consistent with the provincial average, increasing the percentage of students with diverse abilities who feel there are two or more adults in their school who care about them has been identified as an emerging area of focus.

Strategies:

- Various opportunities for professional development in areas such as Social Emotional Learning (SEL), trauma-informed practice, Indigenous Education, and compassionate learning communities are provided by the district*
- Multi-year mental health and well-being framework implemented by the district mental health team
- Opportunities for students to share their voice and organize and participate in events focused in a variety of areas including Mental Health, Indigenous Education, SOGI, and Anti-Racism*
- Implementation of two goals in the Enhancement Agreement, one focused on connectedness and the second on cultural identity
- SAN'YAS Indigenous Core Mental Health Cultural Competence training for staff
- Acting District Principal for Diversity, Equity, and Inclusion provides professional development for staff and opportunities for student engagement such as youth forums
- Targeted staffing for Indigenous learners for all schools support the well-being and sense of belonging for Indigenous learners. It also supports the development of targeted programming such as drum circles and carving with artists.
- Continue to increase the presence of Indigenous cultures, history, and languages across school communities*
- Continue to ensure educators are well supported to incorporate Indigenous worldviews and perspectives into instruction*
- Provide guidance and support to schools in the implementation of the District Code of Conduct*
- Review and enhance transparency in processes designed to respond to the safety and education needs of all learners*
- Review supports, services, and program options for vulnerable students and adjust to meet emerging needs
- Continue to ensure Sexual Orientation and Gender Identify (SOGI) policies and practices are clear, understood, and upheld in all schools and by all members of our school community*
- Expand opportunities for agencies to deliver family and community services within the context of the community school model*

Enhancing Student Learning Report 2021-2022

- Expand opportunities for school staff, parents, and caregivers to increase their understanding of mental health literacy*
- Enhance community partnerships to align mental health strategies with community services and support*
- Increase opportunities for teachers to build capacity with physical and mental health education*
- Implementation of strength-based, competency-based IEP for students with diverse abilities, which also includes a focus on core competencies

CAREER DEVELOPMENT

EDUCATIONAL OUTCOME 4 – Students will graduate.

Educational outcome 4 connects to the following Board of Education’s Strategic Plan priority and goal:

Strategic Priority	Goals
Thriving Students	1. Create opportunities for student success through multiple career development pathways

Measure 4.1

Number and percentage of resident students who achieved a BC Certificate of Graduation Dogwood Diploma within 5 years of starting Grade 8

All Students

- The 5-year completion rate is consistent with the provincial average.

Indigenous Students

- Most provincial data is masked, however in the *How We Are Doing Report* the data shows the 3-year trend is in an upward trajectory for Indigenous student’s 5-year completion rate. As this is an area of focus, staff will continue to implement strategies to close the gap between Indigenous and non-Indigenous learners.

Children and Youth in Care

- As with all small student populations, the percentage of Youth in Care graduating fluctuates from year to year. However, enhancing achievement for these students will continue to be a focus.

Students with Disabilities or Diverse Abilities

- The 5-year completion rate is consistent with the provincial average.

Strategies:

- Core competency conversations with staff to help personalize student goals
- Expand career exploration opportunities*
- Develop innovative graduation capstone processes in secondary schools*
- Enhance community and post-secondary partnerships leading to increased credentialed opportunities*
- Increase participation rates in Youth Train in Trades and Youth Work in Trades programs*
- Expand community partnerships to provide increased work experience opportunities*
- Provide all students with an opportunity to engage in an Applied Design, Skills, and Technologies (ADST) experience*
- Build strong connections and relationships between all adults and Children and Youth in Care
- Direct connection to community supports, youth driven goal setting, empowering youth voice for Children and Youth in Care
- Career program and post-secondary exploration and planning, support with Ministry of Children and Family Development transition programs, Grad planning for Children and Youth in Care

Enhancing Student Learning Report 2021-2022

EDUCATIONAL OUTCOME 5 – Students will have the core competencies to achieve their career and life goals.

Educational outcome 5 connects to the following Board of Education’s Strategic Plan priority and goals:

Strategic Priority	Goals
Thriving Students	<ol style="list-style-type: none"> 1. Create opportunities for student success through multiple career development pathways 2. Community and Continuing Education engages and meets the needs of the broader community

Measure 5.1

Number and percentage of students transitioning to Canadian post-secondary institutions within 1 and 3 years

**The trends below are based on transition to BC post-secondary institutions as the data for Canadian post-secondary institutions was not available at the time of this report.*

All Students

- Considering the immediate and 3-year transition rates, the percentage of students transitioning to BC post-secondary institutions is above the provincial average.
- Enrollment in each program fluctuates on an annual basis based on student choice and the number of seats available in District and Post-Secondary Partner Programs.

Indigenous Students

- The provincial data is masked, however, district staff review the *How We Are Doing Report* annually, analyzing the number and percentage of students transitioning to Canadian post-secondary institutions within 1 and 3 years. This will continue to be an area of focus moving forward.

Children and Youth in Care

- The provincial data is masked. Please see statement on page 2.

Students with Disabilities or Diverse Abilities

- Considering the immediate and 3-year transition rates, the percentage of students transitioning to BC post-secondary institutions is above the provincial average.

Strategies:

- Students are provided with opportunities to develop knowledge and skills that lead to work and/or post secondary programs and that focus on student engagement and student choice including:
 - Work Experience
 - Industry TRAIN and WORK in Trades Programs
 - Industry Certification Programs
 - Industry Connect Programs
- The district is working with post secondary institutions to expand transition programs and create increased opportunities for students*
- Expand career exploration opportunities*
- Develop innovative graduation capstone processes in secondary schools*
- Enhance community and post-secondary partnerships leading to increased credentialed opportunities *
- Increase participation rates in Youth Train in Trades and Youth Work in Trades programs*
- Expand community partnerships to provide increased work experience opportunities*
- Provide all students with an opportunity to engage in an Applied Design, Skills and Technologies (ADST) experience*

Enhancing Student Learning Report 2021-2022

- Implement an improvement strategy that streamlines Community and Continuing Education Services*
- Develop Community and Continuing Education course and program offerings to address changing community needs*
- Increase Community and Continuing Education student completion rates*

NEXT STEPS

This report provides examples of the many initiatives in place to support student success and the district aligns its resources accordingly to support the implementation of goals and strategies. The Annual Enhancing Student Learning Report is a living document. It will be updated annually as the district gathers and reports on performance data and continues to align its efforts, sustain promising practices and monitor and adjust strategies as required.

Appendix A. The Burnaby Board of Education's 2019-2024 Strategic Plan

Message from the Board Chair

There's something special about Burnaby Schools that draws us all here. I believe it is the privilege we each have to help make an impact on our students' lives.

As trustees, we are proud of public education in Burnaby. We see the inspiration in our schools and the success of our students. As a district, we're always challenging ourselves to be better – never resting on our collective achievements. It's the passion of all who work here that has created the exceptionally welcoming, inclusive, and diverse learning community for which Burnaby is known.

The strategic direction outlined here sets priorities that: build on the achievements of the past, while looking ahead to the future of education; help to prepare our students for a changing world; and take an outstanding education and make it even better. If that sounds ambitious, it is. We recognize we can't do it alone – relationships and partnerships strengthen all that we do.

Since the strategic planning process started, we have received thoughtful comments and input from district staff and educators that has helped inform and articulate the plan, and for which we are grateful. We look forward to connecting further with both staff and our partners in the community; your collective wisdom gives life to the plan. Without people and community, even the best of plans are just words on a page.

This is a dynamic and living document—one that will rely on consultation and commitment to continuously improve. I invite you to review this plan and engage in the important conversations and work moving forward.

Gary Wong
Board Chair

Our Vision

A premier learning community where we engage and innovate to inspire global citizenship.

Our Values

- Students Come First
- The Power of Diversity
- Equity, Access, Inclusion
- Collaboration and Partnership
- Curiosity, Innovation, Discovery
- Excellence, Success, Improvement

Our Mission

To engage and empower a caring, inclusive community of learners for the opportunities of today and tomorrow.

Together these ways of thinking and acting help form the culture of our schools and workplaces. By upholding these values, we can build an environment that will lead to the fulfilment of our mission and vision.

Our Strategic Priorities

Our Goals

<p>Thriving Students Through strength-based approaches and innovation we will challenge and support our learners. We celebrate diversity, embrace inclusion and offer multiple learning and career pathways to ensure all students thrive.</p>	<ol style="list-style-type: none"> 1. Engage students in individualized, relevant and innovative learning opportunities 2. Embed Indigenous perspectives and knowledge across the District 3. Implement a strength-based approach to inclusion that meets the diverse needs of all students 	<ol style="list-style-type: none"> 4. Create opportunities for student success through multiple career development pathways 5. Community and Continuing Education engages and meets the needs of the broader community
<p>An Inclusive and Caring Community We will ensure that all learners and their families feel a sense of belonging. We will provide accepting, safe, supportive, and inviting school communities.</p>	<ol style="list-style-type: none"> 1. Create supportive, inclusive and caring learning communities 	<ol style="list-style-type: none"> 2. Increase understanding and support of mental health and well-being
<p>An Inspired Workplace We will plan, recruit, and develop staff to ensure quality instruction and support, strong leadership, and a desirable and inspired workplace.</p>	<ol style="list-style-type: none"> 1. Enhance supports to empower employees in their roles 2. Increase the District's leadership capacity 	<ol style="list-style-type: none"> 3. Implement a staff recruitment / retention strategy that ensures qualified and capable staff in all positions 4. Develop and implement a mental health and wellness strategy to ensure the well being of all staff
<p>Strengthened By Partnerships The quality of education provided by the Burnaby School District will be strengthened by engaging and collaborating with educational and community partners and the input of our students and families.</p>	<ol style="list-style-type: none"> 1. Deepen engagement and collaboration and information sharing with educational and community partners, and families 	<ol style="list-style-type: none"> 2. Increase opportunities for student voice and engagement
<p>A Modern, Safe, and Sustainable Learning Environment Students will learn in modern, safe and sustainable facilities and be supported by current technology and resources.</p>	<ol style="list-style-type: none"> 1. Develop and implement a sustainable Education Technology Plan 2. Develop a Long-Range Facility Plan consistent with Ministry Guidelines 	<ol style="list-style-type: none"> 3. Increase District awareness of climate change and decrease the District's environmental impact

Aboriginal Enhancement Agreement
2014 - 2019**

Ministry of
Education

MESSAGES FROM

THE BURNABY BOARD OF EDUCATION

On behalf of the Burnaby Board of Education, I am delighted to present to you the District's second Aboriginal Enhancement Agreement. A two-year labour of love, it was, for me, a great privilege to be a part of the Working Group, and to see first-hand how a community can come together as one for the well-being of our students.

There are so many groups that impact Aboriginal Education in Burnaby, and they each lent their voices to an extensive process of engaged consultation. Using diverse methods to gather input, I was impressed with how respectfully staff listened to grasp a higher understanding of the unique educational challenges faced by our Aboriginal students. The result of this process, this agreement, outlines enhanced ways to address their needs and our commitment to support academic success. This thorough collaboration illustrated that we are indeed, *Stronger Together*.

The Board perceives this Aboriginal Enhancement Agreement as a framework, acknowledging that we will continue to build upon it, and adapt it, as the needs of our learners might change. We wish to thank all of our partners in education for their involvement. Your thoughtful guidance has shaped this agreement to be a true reflection of how the community wishes education to progress in Burnaby, so that students of Aboriginal ancestry have the opportunity to maximize their full potential.

Baljinder Narang, Chair
Burnaby Board of Education

THE SUPERINTENDENT OF SCHOOLS

I am pleased to be signing the second Aboriginal Enhancement Agreement in the Burnaby School District entitled, *Stronger Together*. It encapsulates the collaborative process of two years of consultation with all partners within our community. Our intention is that this agreement, which is a living document, becomes part of the fabric of the Burnaby School District and the greater community. We believe that all members of the Burnaby Schools community play a part in ensuring success for our students of Aboriginal ancestry. Further, I believe that teaching traditional Aboriginal understandings has value for all District learners.

Thank you to the Aboriginal Enhancement Agreement Working Group, the Ministry of Education and all of our partners who have come together in partnership to strengthen our community. We look forward to continuing the conversation of how best to enhance programming for Aboriginal students in Burnaby Schools through the life of this agreement.

Kevin Kaardal, Superintendent of Schools/CEO
Burnaby School District

ACKNOWLEDGEMENT

We thank and honour the contributions of all students, staff, parents and community partners that helped make Burnaby Schools' second Enhancement Agreement a reality. In particular, we would like to acknowledge the efforts of our Aboriginal Enhancement Agreement Working Group which worked behind the scenes to process the information gathered through focus groups, community gatherings and parent surveys, and helped establish themes from that information. This group represents the collaborative participation of all willing stakeholders from within Burnaby Schools.

Community Partners:

Ron Johnston, Director, Office of Indigenous Education, Faculty of Education,
Simon Fraser University

Rebekah Mahaffey, Social Planner, City of Burnaby

Sanya Pleshakov, Program Coordinator, Burnaby Village Museum

The North Fraser Métis Association

School District Partners:

Kevin Brandt, Director of Instruction, Burnaby School District

Marjean Brown, Teacher, Burnaby Teachers' Association Representative

Brandon Curr, District Vice Principal, Aboriginal Education, Burnaby School District

Lorelei Lyons, Aboriginal Youth and Family Worker, CUPE Representative

Wanda Mitchell, Director of Instruction, Burnaby School District

Baljinder Narang, Chair, Board of Education, Burnaby School District

Ben Pare, Literacy Consultant, Burnaby School District

Roberta Price, Elder

David Starr, Principal, Burnaby Principals' and Vice Principals' Association Representative

PREAMBLE

The Burnaby School District acknowledges and thanks the Coast Salish Nations of Musqueam, Tsleil-Waututh and Squamish on whose traditional territories we teach, learn and live. The intention of this second agreement is to continue with the strong foundation laid by the first enhancement agreement entitled *Aboriginal Voices: Creating Our Future* by continuing to support the personal and academic successes of our students of Aboriginal Ancestry. This second agreement, entitled *Stronger Together*, marks a continuation of the collaborative partnership between all stakeholders within Burnaby Schools that seeks to promote mutual respect, common understanding, inclusion and collective ownership.

This five-year agreement highlights key areas of focus in regards to our students of Aboriginal ancestry. After extensive consultation via community gatherings, student focus groups and parent surveys, three focus areas emerged. The three areas of focus are inextricably linked to one another, and as such, we recognize that the focus must be centred on the development of the whole individual. Cultural development, social emotional development and academics must be interwoven to ensure the success of all students of Aboriginal ancestry in Burnaby Schools. This interwoven approach requires our students to walk competently and confidently in the modern, urbanized world in which Burnaby is situated. With that in mind, our areas of focus are student achievement, culture and sense of self, and community connectedness and belonging. Ongoing monitoring and tracking of these three areas will guide the development and implementation of initiatives and programs that will be for the benefit of all students of Aboriginal ancestry within Burnaby Schools.

2014 - 2019

GUIDING PRINCIPLES

In order to ensure ongoing success for our students, we must take a critical approach to reflecting on our progress thus far and our ongoing progress in the future. As such, the following question has been in the forefront over the course of our data collection period:

What is going on for our learners?

This question will continue to be in the forefront as we assess programming and initiatives aimed at supporting success for students of Aboriginal ancestry. This question will be laced within the following guiding principles:

- **Collective Ownership**

A culture of collective ownership is guided by a shared belief that the primary responsibility of every member of the community is to ensure high levels of learning for every student of Aboriginal ancestry (Buffum, Mattos and Weber, 2012). Every member of the Burnaby Schools community plays a role in determining the level of success for each student of Aboriginal ancestry. A deep understanding of our shared history as Canadians and our shared histories' contemporary contexts are crucial in creating responsive learning environments for our students of Aboriginal ancestry.

- **Walking in Two Worlds**

Walking in two worlds is the ability of our children to be competent in their traditional realm, as well as the urbanized realm in which the community of Burnaby is situated. From 1961 to 2006, the urban Aboriginal population has grown from 13% of the Aboriginal population within Canada to 53% (Norris and Clatworthy, 2011). This trend, which is expected to continue, along with the fact that as of the year 2011, 28% of the Aboriginal population in Canada was under 14 years of age, requires us to provide a framework that supports every Aboriginal youth's chances of maximizing their personal potential, in both their cultural and contemporary worlds (Statistics Canada, 2011).

- **Focus on Learning**

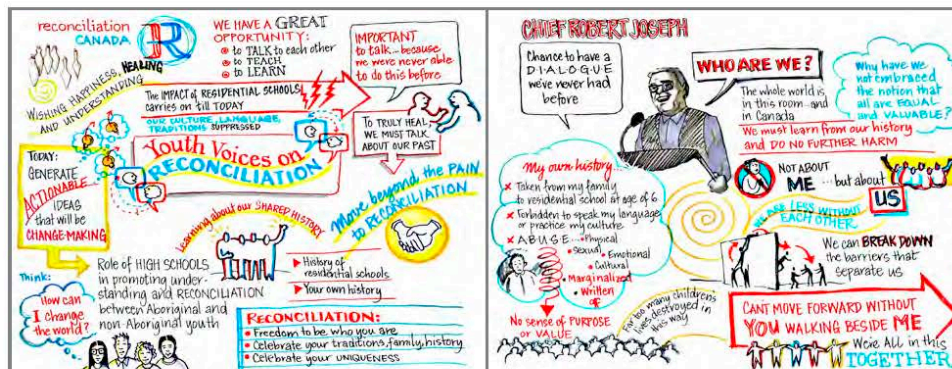

The First Nations Principles of Learning inform us that 'learning ultimately supports the well-being of the self, the family, the community, the land, the spirits and the ancestors.' Allowing all students to maximize their personal potential within the learning environment is one of the primary responsibilities of the Burnaby School District. The learning environment for our students of Aboriginal ancestry must be reflexive and reflective, as well as representative of Aboriginal peoples.

OUR JOURNEY

Since the signing of our first agreement in 2008, Aboriginal Education in Burnaby Schools has built a strong foundation from which to continue to build upon. Over the course of the 2013-2014 school year, we undertook the process of collecting information from parents, students, principals, teachers, support staff and other members of our community to get varied perspectives on how people feel about how we are supporting our students of Aboriginal ancestry. Beginning in 2012 to Fall 2014, we hosted eleven community gatherings with the focus of each gathering on our children's experiences within Burnaby Schools. The gatherings were attended by students, parents, elders and staff. These rich discussions spiraled from each preceding meeting, with all shared perspectives collected for further analysis.

Along with the community gatherings, parents were provided with the opportunity to partake in four surveys. Staff were also provided with the opportunity to have their voices heard through three surveys. This information was also collected for further analysis.

All collected information was then provided to our Aboriginal Enhancement Agreement Working Group, who worked behind the scenes processing and analysing the information. Through discussion and analysis at working group meetings, information was formulated into goal statements and objectives. These were then shared with community members at gatherings and through surveys for further feedback and discussion. Eventually it was determined that the goal statements encapsulated the sentiments of those that partook in the process, at which point the document was drafted and we held our Enhancement Agreement signing on November 6, 2014.

Burnaby Schools
Aboriginal Enhancement Agreement
2014 - 2019

OVERVIEW

We used our first Enhancement Agreement as a starting point in establishing a basis for our second agreement. The Enhancement Agreement working group took the time to analyze the feedback on the first agreement, as well as the ongoing input on the new agreement. Through the analysis, three theme areas emerged:

- 1) Student Achievement
- 2) Culture and Sense of Self
- 3) Community Connectedness and Belonging

Each theme area has one goal attached to it that is similar to goals in the first agreement. The new goals have been reworked to encompass the guiding principles of this second agreement. Another focus of this agreement was to utilize readily accessible, meaningful data that can be tracked over time and speak to progress being made toward each goal. The data collected will assist in the design, delivery and maintenance of programs that will better meet the needs of our learners.

The working group also decided to leave out the third goal from the original agreement around students developing a healthy lifestyle based on medicine wheel teachings. Although this goal is important for all students, a method of tracking the progress toward this goal was not developed and remains a challenge due to the diversity of approaches to traditional practices amongst Aboriginal peoples that reside within the Burnaby area.

Our thinking around supporting Aboriginal students has evolved since the first agreement and will continue to evolve over the course of this second agreement. Due to these ongoing changes in thinking, we must look at this agreement as a living document, one that is flexible enough to change with our students' and community's changing needs. The signatures on this document represent a commitment to remaining cognizant to shifts in our students' needs and to work in partnership to ensure all Aboriginal students have the opportunity to maximize their full potential within Burnaby Schools.

Aboriginal Enhancement Agreement
2014 - 2019

GOALS

1) Student Achievement

To enhance academic achievement of all Aboriginal learners within the Burnaby School District.

Rationale

The intention of this goal is to increase the level of academic achievement of all Aboriginal learners within the Burnaby School District. The objectives focus on the core skills of early literacy and numeracy, which are foundational in laying the groundwork for enhanced educational outcomes throughout a learner's educational journey from Kindergarten through to Grade 12. It has been found that reading competence is directly related to educational attainment later in life (Statistics Canada, 2011). The focus on grade three reading results marks the point in which students begin to shift from learning to read, to reading to learn, and is also a marker for later school success (Hernandez, 2011).

Objectives	Performance Indicators
Increase Aboriginal student reading performance by the end of grade 3	Grade 3 performance standards data for end of grade 3
Increase Aboriginal student numeracy performance by the end of grade 3	Grade 3 performance standards data for end of grade 3
Increase reading comprehension grade K-7	Grade 7 performance standards data for end of grade 7
Increased reading comprehension scores from K-7	K-7 cohort tracking (Grade specific cohorts will be tracked yearly to monitor year to year progress)

Yearly Performance Targets

Baseline data will be collected in the first year. We expect to see incremental gains every year thereafter.

GOALS

2) Culture and Sense of Self

To increase Aboriginal learners' connection to the school community with a sense of place and belonging that supports and reflects Aboriginal cultural values and perspectives.

Rationale

A student's sense of acceptance into the school setting directly impacts their behaviour and educational outcomes (Osterman, 2000). As such, it is imperative that Aboriginal learners see themselves reflected and represented within their school setting. An Aboriginal student's cultural values may emphasize connectedness and interdependence, so the fostering of a strong sense of identity and self will support the students overall educational outcomes (Fryberg, et al, 2013).

Objectives	Indicators
Increased feelings of positive identity and sense of self	Positive personal and cultural identity competency data
Increased feelings of belonging within the school community	Student survey

Yearly Performance Targets

Baseline data will be collected in the first year. We expect to see incremental gains every year thereafter.

Burnaby Schools
Aboriginal Enhancement Agreement
2014 - 2019

GOALS

3) Community Connectedness and Belonging

To increase knowledge and understanding of Aboriginal history, traditions and cultures for all learners, supported by the wider school and community.

Rationale

In order to create understanding that supports our Aboriginal learners, we must focus on local actions and understandings in this increasingly globalized environment. Diversity of approaches within our system will help support all learners in their educational journey, but these approaches must include the perspectives of Canada's Indigenous Peoples. As stated by Halbert and Kaser (2013), "We need to build curiosity about our history as well as increasing our knowledge of Indigenous principles of learning." It has also been noted that the inclusion of Indigenous perspectives in learning outcomes, instructional methods and assessment results in positive outcomes for our Aboriginal students (Kanu, 2007).

Objectives	Performance Indicators
Increased Aboriginal content in all subject areas K-12	Number of requests for resources from DLRC Number of requests for classroom presentations by Aboriginal Resource Teachers
Increased number of students reporting that they are learning about Aboriginal peoples in school	Student satisfaction survey results grades 4, 7, 10 and 12

Yearly Performance Targets

Baseline data will be collected in the first year. We expect to see incremental gains every year thereafter.

APPENDIX A: STRATEGIES TO SUPPORT GOALS & OBJECTIVES

Student Achievement

To enhance academic achievement of all Aboriginal learners within the Burnaby School District.

Strategies:

- Targeted Reading Recovery for Aboriginal students
- Infusion of learning strategies into Circle Programs
- Focused literacy and numeracy instruction and intervention K-12

Culture and Sense of Self

Strategies:

- Development of a Visiting Elders Program
- Hosting of Aboriginal community gatherings that highlight traditional protocols

Community Connectedness and Belonging

Strategies:

- Aboriginal Education professional development workshops for all staff throughout the District
- Content development for K-12 classroom teachers

Stronger Together: Aboriginal Education in Burnaby Schools Enhancement Agreement 2014 - 2019

This agreement was developed collaboratively by the Aboriginal Enhancement Agreement Working Group comprised of the official signatories outlined below.

The Enhancement Agreement Working Group sought input from all stakeholders in the District including parents, students, teachers, administrators and community partners to develop the goals and statements in the agreement.

It is a collaborative partnership centred around continued success for students of Aboriginal ancestry in Burnaby Schools.

We, the undersigned, recognize our shared responsibility to guide, honour and uphold the contents of this living agreement in the spirit of mutual respect and unity as signed on this 6th day of November, 2014 for the period ending November 5th, 2019.

2014 - 2019

Appendix C. Enhancing Student Learning Report Data

Enhancing Student Learning Report Data

The purpose of this document is to provide a summary of the Ministry data related to the Enhancing Student Learning Ministerial Order (the Order). The report is masked according to the Protection of Personal Information when Reporting on Small Populations policy (<https://www2.gov.bc.ca/gov/content/education-training/k-12/administration/legislation-policy/public-schools/protection-of-personal-information-when-reporting-on-small-populations>) so it can be shared with the public. Numbers that are masked will not appear on the charts. Please direct questions regarding this report to educ.reportingunit@gov.bc.ca

The student populations specified in the Order are:

Indigenous students	Students who have ever self-identified as Indigenous on an enrolment collection.
Indigenous students living on reserve	Based on enrolment records, students who have been identified as 'STATUS INDIAN ON RESERVE'.
Indigenous students living off reserve	Based on enrolment records, students who have never been identified as 'STATUS INDIAN ON RESERVE'.
Children and youth in care (CYIC)	Students who have been identified as Children/Youth in Care in the twelve months prior to September by the Ministry of Children and Family Development.
Students with disabilities or diverse abilities	All 12 categories including Gifted are used in identifying these students.

The measures specified in the Order are:

Measures	Notes	Page(s)
Number and percentage of students in grades 4 and 7 on-track or extending literacy expectations	Five years of resident student data in BC Public schools across different FSA administrations between Meeting and On Track/Exceeding and Extending.	2-3
Number and percentage of students proficient or extending literacy expectations as specified in the Grade 10 literacy assessments	As of the 2020/21 school year, only one year of resident student data in BC public schools is available as the Grade 10 literacy assessment started in 2019/20. The measure is based on the first write of grade 10 students.	4
Number and percentage of students in grades 4 and 7 on-track or extending numeracy expectations	Five years of resident student data in BC Public schools across different FSA administrations between Meeting and On Track/Exceeding and Extending.	5-6
Number and percentage of students proficient or extending numeracy expectations as specified in the Grade 10 numeracy assessments	Included the 3 years of resident student data in BC Public schools as the Grade 10 Numeracy assessments started in 2017/2018. The measure is based on the first-time Grade 10 students wrote the assessment.	7
Number and percentage of students who are completing grade to grade transitions on time	This measure is the rate of Grade 10 and 11 resident students in BC Public schools transitioning into the next higher grade.	8-9
Number and percentage of students in grades 4, 7, and 10 who feel welcome, safe, and have a sense of belonging in their school	Resident students in BC public schools who responded 'Often' or 'Always' to the 'Belonging' questions on the Student Learning Survey. The 'Do you feel safe?' question is anonymous so student population breakdown is not available.	10-12
Number and percentage of students in grades 4, 7, and 10 who feel there are two or more adults at their school who care about them	Resident students in BC Public schools who responded to '2 adults' or '3 adults' or '4 or more adults' to the question, 'At your school, how many adults do you feel care about you?'.	13
Number and percentage of resident students who achieved a BC Certificate of Graduation Dogwood Diploma within 5 years of starting Grade 8	Based on a sub-model of the six-year completion rate process for residents students in BC public schools; therefore, a) Data is not available until one year after the students have graduated; and b) Data tables refers to year 6 (i.e. one year after the students have graduated).	14
Number and percentage of students transitioning to Canadian post-secondary institutions within 1 and 3 years	Information is based on transitions of resident students in BC public schools into BC public post-secondary institutions. However, the Ministry is pursuing information for Canadian institutions.	15-16

See the last page for further information about sub-populations and measures captured in this document.

Additional notes

Subpopulations

All Resident Students

Students identified as residents through the annual enrolment collections in September and February.

Indigenous Students

Students who have ever self-identified as Indigenous on an enrolment collection.

Indigenous students living on reserve

Based on enrolment records, students who have been identified as 'STATUS INDIAN ON RESERVE'.

Indigenous students living off reserve

Based on enrolment records, students who have never been identified as 'STATUS INDIAN ON RESERVE'.

Children/Youth in Care

Students who have been identified as Children/Youth in Care in the twelve months prior to September.

Students with Disabilities or Diverse Abilities

Students who have been identified in any of the 12 categories: Physically Dependent; Deafblind; Moderate to Profound Intellectual Disability; Physical Disability / Chronic Health Impairment; Visual Impairment; Deaf or Hard of Hearing; Autism; Intensive Behaviour Interventions / Serious Mental Illness; Mild Intellectual Disability; Gifted; Learning Disability; Moderate Behaviour Support / Mental Illness.

Foundation Skills Assessment (FSA)

Grade 4 and Grade 7 Participation

Participation is calculated as the number of writers of the assessment divided by the number of expected writers.

Grade 4 and Grade 7 Achievement

Achievement is calculated as the number of writers at or above standard divided by the number of writers.

Note: These charts combine two different administrations of the FSA. The 2015/2016 and 2016/2017 administration took place in February and categorized students as Not Yet Meeting Expectations, Meeting Expectations, or Exceeding Expectations. Later administrations took place in November and categorized students as Emerging, On Track, or Extending.

5-Year Completion Rate

This measure is a sub model of the 6-Year Completion Rate which identifies a cohort of students putatively in Grade 8 and tracks them over time. Since it is a sub-model, it is not available until after students complete Year 6. The year represents the year these students are in their sixth year.

Post-Secondary Institute Transition (PSI)

This measure examines the number of students who are eligible to graduate and identifies the proportion of these students who make a transition into a BC public post-secondary institution.

Student Learning Survey (SLS)

Sense of Belonging

This measure is a combination of three questions on the SLS, School Belonging, Feel Welcome, and Feel Safe. The Feel Safe question is anonymous; therefore, it is included as a subcomponent of only the All Resident Students chart. The other three charts combine the results of the questions School Belonging and Feel Welcome.

School Belonging

This measure is a specific question on the survey where the response is connected to a student.

Feel Welcome

This measure is a specific question on the survey where the response is connected to a student.

Feel Safe

The Feel Safe question is anonymous; therefore, it cannot be broken down by other subpopulations.

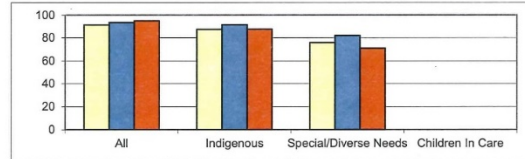

Appendix D. Summative Report Cards Results – Elementary Literacy

Report Card Results - Language Arts

2019 2020 2021

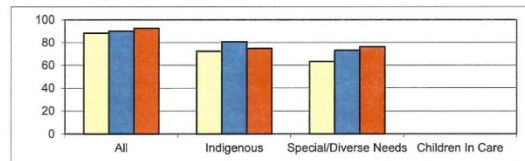

Kindergarten. English Language Arts. Percentage of students Developing, Proficient or Extending
