

Summer Session

2023

ELEMENTARY

Whether you're looking for academic enrichment, to learn a new skill, or just have fun – with dozens of options, there's something for everyone.

REGISTER EARLY ONLINE | APRIL 11 - MAY 18

burnabyschools.ca/summersession

► TUITION-FREE?

Elementary students who meet the following criteria are eligible to take **one tuition-free morning academic course**. All afternoon activity programs are fee paying.

Your child must:

- ❑ be a Canadian Citizen, permanent resident or convention refugee
- ❑ have attended a BC school in the 2022-2023 school year and ordinarily reside in BC with a parent/guardian
- ❑ have a BC Personal Education Number (PEN)

Those not eligible, or those signing up for courses requiring fees can pay by Visa or Mastercard.

Transfers & refunds must be made by July 7.

► Learning Support

If your child has an IEP and/or a Fraser Health Care Plan or Consultation Report and is currently receiving additional learning support from an Education Assistant at school, we encourage you to register online **before May 12** to ensure adequate support is available.

First priority for students requiring additional learning support will be given to Burnaby School District regular session students.

please note...

Course Locations & Cancellations

Courses and their locations cannot be guaranteed. Course offerings are subject to sufficient enrollment and may be moved or cancelled prior to the course date.

IMPORTANT INFORMATION

FOR NON-BURNABY SCHOOL DISTRICT STUDENTS OR RECENTLY ENROLLED BURNABY SCHOOL DISTRICT STUDENTS (REQUIRED EVERY YEAR, EVEN IF PREVIOUSLY ATTENDED SUMMER SESSION)

A pre-approval form must be filled out on the burnabyschools.ca/summersession website to be able to select courses online. This link is available as of February 21, 2023. Upon approval, you will receive notification about your eligibility to register for Summer Session courses with the Burnaby School District.

Please be sure to have the following documents ready during the online registration process:

- ❑ **Proof of student's birthdate:** birth certificate or passport
- ❑ **Proof of guardianship:** parents' or guardians' as shown on birth certificate or other appropriate legal documentation such as landed immigrant papers or guardianship "order" granted by the courts
- ❑ **Proof of citizenship for both parent and the student:** Canadian birth certificate, citizenship card, passport, landed immigrant document, permanent resident card
- ❑ **Proof of residency of the parent/guardian and student.** Two pieces required, with at least one being from Category A:
 - **Category A:** proof of ownership of dwelling (i.e. purchase contract, property assessment, annual municipal utility/tax statement); long term lease/rental agreement; parent or guardian's income tax return or notice of assessment from Revenue Canada
 - **Category B:** BC Hydro bill, BC cable bill, provincial driver's license, provincial registration of automobile, Canadian bank account or credit card statement
- ❑ **Copy of student's most recent school marks:** report card or transcript of academic record
- ❑ **BC Personal Education Number (PEN)**
- ❑ **IEP (Learning Support, if applicable)**

MORNING - Academic Course Descriptions

ONE TUITION-FREE ACADEMIC COURSE PER ELIGIBLE STUDENT

Eligible Students: Tuition Free | Fee Paying Students: \$665

► **Adventures in Music**

Come and spend your mornings playing with music! This class uses a variety of methods to learn music. You will play musical games outside and then come inside to play rhythms and melodies on a variety of instruments.

► **Adventures in Reading**

Develop an appreciation for the enjoyment of literature, increase confidence with printed word, and get a jumpstart for September.

► **Art**

These classes are teacher specific and will vary in content depending on the passion of the teacher. Students will develop their creative expression and personal appreciation of art. Projects may include drawing, painting, printmaking, image development, stitch work, clay work or sewing.

► **Beginner Guitar**

Learn the basics of playing an acoustic guitar. Learn how to play chords, count rhythms and beats, and how to pick notes. You will also develop your signing technique as you work to create performances of pop songs.

► **Brain Gymnastics - French**

Give your brain a fun workout every day! Learn strategies to see fascinating puzzles from different perspectives and find creative solutions to interesting challenges. This course will help students improve their skills in creative problem-solving and critical thinking such as observing, comparing, analyzing, evaluating and drawing conclusions.

► **Cinema & Storytelling**

Come and learn how to create a story, convert it to a movie script and then use real movie cameras and a green screen in the studios at

SFU to produce your own short film. This course will take place on the SFU campus using their equipment.

► **Comic Creation**

This course is intended to spark students' love for writing by exploring the popular medium of comic creation! Students will learn about key parts of effective comic strips.

Using paper and pencil as well as iPad technology, students will work to make imaginative and creative comic strips.

► **Engineering**

If you enjoy hands-on engineering projects this course may be for you! In this course you will design and build creative solutions to various challenges using common hand tools in a safe and creative environment. We will focus on design using a variety of materials.

► **Exploring Science (Primary & Intermediate)**

Students in both the primary and intermediate programs will have fun while learning scientific principles and methods through exploratory activities.

► **Exploring Writing (Primary & Intermediate)**

Do you have a burning desire to be an author? Primary students will work together to build ideas, frame their thinking and use writing to communicate their thinking in a powerful way.

Intermediate students will be taken through the steps of the writing process in order to further develop their skills in drafting, editing, revising and critiquing their writing.

MORNING - Academic Course Descriptions

ONE TUITION-FREE ACADEMIC COURSE PER ELIGIBLE STUDENT

Eligible Students: Tuition Free | Fee Paying Students: \$665

► **Fibre Arts & Design**

This course will provide opportunities for students to explore a series of fibre related activities which may include spinning wool, sewing, felting, crocheting and design thinking. Students will engage in creative and cooperative challenges and will develop hands-on skills in several areas.

► **French Introduction (Intermediate)**

Looking to maintain or improve your child's French during the summer? Thinking about Late French Immersion?

This activity-centered and communicative-based course will keep students moving and having fun in French. Open to beginners and novice students.

► **GarageBand**

Are you interested in the world of sound production and music creation? Do you want to learn how to record your own songs and share them with others? If so, this course on GarageBand is perfect for you!

Students will learn how to start a new project and select the built-in microphones on their devices to record their voices. They will also discover how to use effects to make their recordings sound funny and weird. In addition, students will have the opportunity to add other virtual instruments to their projects, all with the simple touch of a screen.

Come and join us in exploring the wonderful world of musical production with GarageBand!

► **Get Ready for Grade 1**

Students who have **completed** Kindergarten can participate in this hands-on course which is designed to stimulate minds in playful ways through engaging activities in a social setting.

► **Get Ready for Grade 1 (French Immersion)**

Students who have **completed** French Immersion Kindergarten can participate in this hands-on course which is designed to stimulate minds in playful ways through engaging activities in a social setting.

► **iPad Adventures**

Come and learn some of the amazing things you can do with an iPad. We will look at the various functions and possibilities of the iPad to help you get more out of your experience working on this amazing device.

We will look at the picture taking possibilities, possibly investigate how to make a short movie, and explore some of the other creative functions available.

► **iPad Explorations**

Students will begin by learning basic skills and then use those skills to create meaningful video presentations. Cutting and editing, how to use a storyboard and how to incorporate visual and audio effects may also be taught. See you in the movies!

► **Nature Explorations**

Come and discover all the fascinating things that can be learned outdoors. Through an integrated approach to learning (Literacy, Math, Science, Art) students will be encouraged to develop an understanding of the connections found in nature.

► **Performing Arts**

Explore and create stories through dance, instruments and voice. Students will have the opportunity to write a story in a group that is meaningful to them. Students will either compose music or choreograph dance in a group and then have a chance to perform it in a way that relates to the story.

MORNING - Academic Course Descriptions

ONE TUITION-FREE ACADEMIC COURSE PER ELIGIBLE STUDENT

Eligible Students: Tuition Free | Fee Paying Students: \$665

► **Photography**

Learn to work with a digital camera to take pictures you will be proud of. Learn the basic operations of the camera, how to shade, light, frame and other techniques to improve the quality of the pictures you take.

► **Primary French**

For students who are currently enrolled in a French Immersion program, this course will continue a variety of fun activities presented in French. **STUDENTS MUST HAVE BEEN ENROLLED IN A FRENCH IMMERSION CLASS-ROOM DURING THE 2021/2022 SCHOOL YEAR.**

► **Rec & Read**

Students will enjoy reading activities while enjoying a variety of activities in the great outdoors.

► **Rec & Write**

Students will enjoy writing activities while enjoying a variety of activities in the great outdoors.

► **Robotics & Design**

Using VEX IQ robots and Tinkercad, students will build and program robots as well as a variety of electronic units. This class will focus on building electronics, technology, teamwork and thinking skills.

► **Robotics - Scratch/Sphero**

Using Scratch online coding and Sphero robots, students will work in teams to solve problems, do online animation, program and use robots. This class will focus on building teamwork and thinking skills.

► **Robotics - VEX IQ**

Students will work in teams to build online code, put together and program robots and

solve problems. This class will focus on developing technology, teamwork and thinking skills.

► **Rock Band**

Rock out this summer! Play, sing and perform your favourite rock and pop songs. We provide everything you need – guitars, bass, keyboards, drums and microphones for singers!

It's a great way to improve your technique and learn pro tips for performing with a group if you already play or sing and a fun introduction to being in a band even if you're new to an instrument.

Our fun three-week program covers different eras so you'll learn new songs too! The final day is a real rock concert in the gym for students and staff!

► **Sewing**

Learn the basics of sewing such as threading the machine, basic stitches, and sewing using woven fabric.

Projects will be fun, engaging and practical, and introduce students to the creative world of sewing. Students will learn to make face masks, scrunchies, some cool pajama shorts and more!

► **Sports & Rec**

Continue to develop your physical abilities through a variety of athletic activities. Skill development, game strategy, physical fitness and recreation opportunities will help you hone your athletic skills.

Learn the health benefits of regular physical activity and how to access opportunities to be active in the school and community through this fun and informative course.

MORNING - Academic Course Descriptions

ONE TUITION-FREE ACADEMIC COURSE PER ELIGIBLE STUDENT

Eligible Students: Tuition Free | Fee Paying Students: \$665

► **Uke Got It! Ukulele**

Students will be introduced to the soprano ukulele, learning how to fingerpick songs and play chords. The repertoire will consist of pop music and include songs featuring both boom whackers and ukulele.

Participants will work in small ensemble groups to learn song arrangements. Ukuleles will be provided; Ensemble jam sessions, and fun educational games included!

► **Woodworking**

Learn how to cut, measure, and fasten pieces of wood together. This course teaches you how to safely explore the workshop and all of its possibilities.

You will learn how to design, construct and test your own designs using saws, hammers, drills, presses, etc.

AFTERNOON - Activity Program Descriptions

REQUIRED TUITION: \$310 | INTERNATIONAL STUDENTS: \$665

▶ **Drama/Musical Theatre**

Are you interested in drama and improv? Are you interested in participating in a play or musical? Students will have an opportunity to build their own sets and props during art activities and perform in their own play or musical.

▶ **Electronics**

Students will have the opportunity to work with 3D printers, robots, digital photography, and Arduino, along with a variety of other electronic gear to make electronics projects. This Makerspace approach will use groups and the interests of students to design and build a variety of projects.

▶ **Engineering and Machines**

This course will have students take part in hands-on mechanical engineering activities. Ideas will go through a design process, followed by construction, analysis and redesign. Projects will use simple tactile materials and incorporate the fundamentals of simple and complex machines.

▶ **Enrichment Art**

This program offers flexibility, differentiated instruction, community building, skill building and self-discovery through visual arts, while incorporating some "outside the box" opportunities for arts exploration. Students will discover what they love about creating and appreciating art and how art influences their lives and learning.

▶ **Hip Hop and Health**

Hip Hop and Health is an exciting class that will not only teach your child some fun dance moves, but will also focus on healthy living.

The first half of the class will start with a thorough warm up, and will then move on to

learning some of the latest hip hop moves. The second half of the class will involve discussions around the importance of exercise, sleep and nutrition to maintain a healthy body.

▶ **Minecraft**

Explore the best-selling computer game of all time while you learn about programming, as you acquire resources to build the world and maintain health.

▶ **Movie Making**

Use iPads to create short films! This class will be like a film school where students learn how to cut and edit, storyboard, add visual and audio effects and how to present a variety of types of information and emotions.

▶ **Sewing & Fashion Design**

Unleash your creativity by designing your own clothes using sewing machines. Students will learn to construct a garment with different type of fabric and how the choice of specific fabric affects the overall aspect of a design.

Students will learn how to add details to their finished product to make it truly unique. For this class, a knowledge of basics is recommended (such as threading a machine).

▶ **Ultimate Frisbee**

Come and learn a game you can play for the rest of your life! The focus will be on physical wellness, sportsmanship and learning basic skills to play Ultimate Frisbee. Be prepared to be outside running everyday!

▶ **Visual Arts**

Students will learn to work with a variety of materials to create functional and sculptural artwork pieces. Materials could include clay, playdough, sewing materials, wood, etc.
